## AI Meeting Camera for Small and Huddle Space

Yealink UVC40 is a smart meeting camera for small and huddle rooms. Featuring 20MP sensor and 133 ° super-wide-angle lens, UVC40 delivers outstanding video quality. Its AI technologies and built-in auto privacy shutter allow users to experience a smarter and safer video conference. With 8 MEMS microphone arrays and Yealink new audio algorithms, UVC40 brings excellent audio experience in small rooms even in full-duplex mode and ensures that everyone can be heard as well as seen. UVC40 is ideal for small and huddle rooms.

## Key Features and Benefits

### 20 MP | SONY 1-inch CMOS | Super-Wide 133° Field of View
20 MP camera with SONY 1-inch CMOS brings UHD 4K video conference with delicate details. With super-wide 133° field of view, everyone in the conference can be seen without adjusting the camera. Moreover, the image brightness can be automatically optimized even in a dim or backlight environment, ensuring the participant faces can be seen clearly.

### Precise Sound Localization, Full-Duplex Experience
8 MEMS microphone arrays make UVC40 have stronger ability of noise proof and dereverberation. The new upgraded beamforming algorithm, together with technology of processing on acoustic echo cancellation and the dereverberation, brings high quality full-duplex call and realizes more precise voice pickup.

### Smart Video Conferencing with AI Technology
Featuring AI technology, including Auto Framing and Speaker Tracking, UVC40 not only supports frame the groups automatically according to the number and the position of the participants, but also automatically zoom in the speaker without adjusting the camera, making the participants more focus on the conference.

### Secure Conference with Auto Camera Privacy Shutter
The camera privacy shutter automatically opens when the video conference starts and remains closed when not having video conferences. The lens status is visible at a glance, eliminating "lens anxiety" in daily conferences.
